

FOOD SAFETY MANAGEMENT POLICY

As Pamyag Gıda Sanayi Ticaret A.Ş. at our facility where we produce vegetable-based solid and liquid oils, we are committed to ensuring food safety at every stage of the process and input, from raw materials to the consumer:

- To ensure food safety,
- To evaluate potential risks by implementing management systems related to products and processes, to identify their effects on the product, employees, and the environment, and to eliminate or minimize those risks,
- To monitor and implement legal regulations, ensuring the legal compliance of our products,
- To design the facility, processes, and equipment in a way that does not compromise food safety or product quality, and to ensure continuous improvement,
- To effectively collect feedback from consumers and customers, establish appropriate corrective and preventive actions, respond accurately, and ensure the effective operation of the system,
- To ensure customer satisfaction with our products and services,
- To carry out product and facility innovation efforts in line with legal regulations, quality, and food safety standards,
- To establish effective communication with our suppliers, legal authorities, and customers,

In order to contribute to the internal and external training of our employees, we are committed to:

- Allocating resources for their development,
- Creating an appropriate environment for them to progress with a quality-conscious and inquisitive approach in every activity, and to instill a food safety culture.
